

# CONTEMPORARY KAITIAKITANGA – Regenerative Management<sup>1</sup> Model

Healthy Planet – Healthy People: *iwi hauora ao hauora*

Consequentially, all decisions all actions (because the bio-physical / meta-physical / socio-cultural world is extensively degraded) must result in **NET ENDURING RESORATIVE OUTCOMES** and be responsibly moderation by precaution. Outcomes derived, strategically, from this approach can/ progressively, set the compass towards a regenerative Natural World state =

**Healthy Planet – Healthy People: *iwi hauora ao hauora*. A healthy balanced Natural World (which includes the human species), people with a quality sustainable lifestyle, which is underpinned by socio-cultural equity and justice.**

**Ian Shapcott - Kaitiaki O Te Taiao.**

<sup>1</sup> The term "regenerative" describes processes that restore, renew or revitalize their own sources of energy and materials. **Regenerative** design uses whole systems thinking to create resilient and equitable systems that integrate the needs of society with the integrity of nature.
